AMIRALI SOBHGOL

SITE RELIABILITY ENGINEER

👤 ABOUT

I'm a self-taught and motivated Site Reliability Engineer with 5 years of experience.

💼 WORK EXPERIENCE

Cafebazaar
April 2019 – Present

Site Reliability Engineer

Highlights

- Increased SLO adoption rate of teams from 0 to 50% with more on the way by organizing workshops and pitching the idea to management.

- Reduced false alarms from more than once a day to less than once a month by applying SRE principles.

- Improved elasticsearch storage & resource load balancing by 50% by using Index Rollover

- Increased data retention from days to years, reduced query latency, and expanded query time range from weeks to years by using M3DB, organizing workshops, and writing documentation.

Bamilo - Iran Internet Group
April 2018 – April 2019

Software Engineer - Site Reliability Engineer

Highlights

- Increased read throughput by 10x and reduced response latency by ~53x by implementing CQRS pattern.

- increased write throughput by more than 50% via sharding and micro batching.

Pixels&Code
July 2015 – April 2018

Full-stack Developer

Highlights

- Developed and maintained 3 web applications for our clients

- Suggested & Implemented framework to improve development speed by 15%

▤ SKILLS

Containers & Container Orchestration `Expert`

`Docker` `Kubernetes` `Nomad` `Swarm`

Monitoring `Expert`

`Prometheus`

Linux `Proficient`

Automation `Proficient`

`Ansible`

Databases `Proficient`

`Elasticsearch` `Uber M3` `Redis` `Postgres`

Software Engineering `Proficient`

`Javascript` `Golang`

Messaging Systems `Proficient`

`kafka`

CI/CD `Proficient`

`Gitlab CI`

Network `Competent`

`TCP/IP` `Application Layer Protocols`

♥ INTERESTS

Pyschology

`Transactional Analysis` `Self-Help`

Books

`Technical` `Psychology` `Self-Help`
